**Fukui**

**主催：ZDHC**

**協賛：日華化学株式会社**

**協力：一般財団法人 日本繊維製品品質技  
術センター(QTEC)**

**2019年6月7日(金)**

**福井県福井市**

## **ZDHC Programme & ZDHC Implementation Seminar**

- ZDHC is a global industry collaboration currently consisting of 126 Contributors, among them 28 Signatory Brands, 81 Value Chain Affiliates and 17 Associates. The vision of ZDHC is widespread implementation of sustainable chemistry, driving innovations and environmental best practices in the textile, apparel, leather and footwear value chains. Aiming to advance the collaboration and capacity of chemical management of the Japanese apparel and footwear industry, ZDHC will host a half-day seminar on ZDHC Programme & ZDHC Implementation on June 7 in Fukui. We sincerely invite sector associations, brands and their suppliers, chemical manufacturers and service providers from the leather, synthetic leather/coated fabrics and textile value supply chains to join our gathering.
- During this interactive event we will provide updates on the ZDHC Programme, showcase implementation activities and lessons learnt, and share best practices on green manufacturing and chemical management. Participants will furthermore learn about challenges of hazardous chemical management and practical solutions on how to tackle and collectively overcome them. In addition, ZDHC contributors NICCA and QTEC will share the status of their efforts on the environment and ZDHC.
